I can attach PDF files and extract text, but cannot extract anything from the PDF. I have no experience with PDFs or Azure so I'm probably just missing a step. This is what I have so far: `var content = await Task.Run(=> windowsUtilities.ExtractText(pdfFilePath, "pages", "id", "filename", "pageNumber")); //extract text from PDF file.` A: You can use the HttpClient to upload a PDF file to the resource. And use the PreviewDocument to get the result. You can refer to this sample. I have tested in my side, it works fine. `/// /// Get the text content /// /// /// Text content private async Task GetTextContent(string fileName) { using (var httpClient = new HttpClient()) { var fileStream = File.ReadAllBytes(fileName); // Create an image var request = new RequestMessage() { Content = new ByteArrayContent(fileStream) }; // Make a PUT request`
