OpooSoft PS To IMAGE Serial Key is a reliable and practical application that helps you convert PostScript and Encapsulated PostScript files to a large number of image formats. It provides you with a fast way of transforming your PS and EPS code into BMP, EMF, WMF, JPEG, PNG, GIF, TIFF and PCX formats. This way, you can easily use it in various presentations, printing and multimedia projects. The application displays a comprehensive interface that makes it easy-to-use by just about anyone. To convert a file you have to load it into the application, choose the export file and then click 'Convert'. It's that easy and the files are exported immediately. For some of the formats, the application provides you with additional settings that you can change in order to get the best possible output for the files at hand. For example, in case of a JPEG file, you get to choose between exporting it in color or grayscale mode, while for TIFF files, you are allowed to choose their compression format. DPI can also be set for every format and it can range between 72 and 600 making it a very helpful feature. This way you can avoid exporting large files that just occupy space. The application provides you with even more control over the exports as it allows you to choose between predefined image sizes and even enter your own width and height for the exports. In case you deal with large numbers of files, the application provides you with batch processing. You can add files by drag-and-drop actions and rearrange them in the list in case some have a higher priority than others. A minor setback that OpooSoft PS To IMAGE Cracked Version has is the fact that you can't have it convert multiple files at once but to different formats. All-in-all, OpooSoft PS To IMAGE Free Download is a handy and well designed application that can definitely deliver great results in both conversion speed and image quality. OpooSoft PS To IMAGE Product Key User's Review
